

# TortillaTek GRAPHITE BASED READY-TO-USE CHAIN LUBRICANT

## PRODUCT DESCRIPTION

TortillaTek Ready-To-Use graphite based chain lubricant is a non-toxic, non-corrosive, heat resistance, non-irritating, odorless and easy to apply water based graphite chain lubricant developed specifically for the tortilla and bakery industry manufacturers to use as a preventive maintenance lubrication, eliminating squeaky and noisy oven slat belt chains by resisting friction, without producing smoke when applied and improving operating efficiency

## USER INSTRUCTIONS (R-T-U)

1. Our Ready-To-Use liquid graphite is quick, convenient and easy to apply, shake vigorously, open, and pour some liquid graphite into a common plastic 64/32 oz. open top container. Container size will depend on the size of your oven. Apply graphite lubricant on your oven slat belt chains, hinges and gears using a common paint brush about the same size width as your slat belt chains. Use an oiler to reach the less accessible parts when the oven is turned off
2. To prevent graphite from smoking, do NOT apply when oven is hot or cold. For best results, apply when oven temperature is between 50°F & 200°F (10°C to 98°C) Turn oven burners on and begin applying, after about 3 to 4 minutes, Turn burners off, keep oven on so slate belts keep moving while you finish applying the lubricant, Turn oven burners on when finished
3. Additional applications will depend on oven size, temperature, production hours etc. It will vary from 8 hours, daily, weekly or as needed for squeaky ovens

## SHAKE WELL BEFORE USING

Ingredients. graphite, water, polyethylene glycol, carbomer and preservatives

Hazard Statements. H320, causes eye irritation

Precautionary Statements. P102, P301, P305+P351+P338, P264, P362, 301+P301+P330+P331, P312, P304+340, P402+404, P502

Accidental Eye Contact. Rinse thoroughly with water for several minutes. Remove contact lenses, If present and easy to do. Continue rinsing
