

TortillaTek MAX CONCENTRATED 800 SILICONE PLUS RELEASE AGENT PRODUCT DESCRIPTION

TortillaTek MAX CONCENTRATED 800 SILICONE PLUS non-stick liquid silicone is NOT an INGREDIENT or an ADDITIVE. It is a non-toxic, non-corrosive, high temperature, processing aid product formulated with food grade silicone oils & natural derived emulsifiers that meet the FDA guidelines. It's classified by the NSF as H3 and was developed to meet the needs of the tortilla, wraps & chapatti manufacturers eliminate product from sticking to their oven slat belts without effecting the taste, color, odor and quality of their products

USER INSTRUCTIONS (12 + 1 = 13)

1. Clean the ovens top and middle slat belt surface area of any rust, lime or other residues using a soft car wash type cloth or a soft bristle brush to clean without scratching them
2. MAX concentrated is our most concentrated liquid silicone. It's up to 3 times more concentrated than other brands. Dilution ratio from 6 up to 12 gal. of water to 1 of silicone. Makes 65 gal. maximum and a minimum of 35 gal. of diluted silicone. Traditional ovens from Mexico start with 12 gal. water to 1 of silicone = 13 gal. of diluted silicone. Small American ovens, start with a dilution ratio of 10 gal. water to 1 of silicone = 11 gal. of diluted silicone. Small American ovens, start with a dilution ratio of 10 gal. water to 1 of silicone = 11 gal. of diluted silicone. 25,000 tortillas plus per hour can start with a dilution ratio of (6 thru 10) Start with a dilution ratio of 9 gal. water to 1 of silicone = 10 gal. of diluted silicone. Adjust dilution ratio for your size oven and production needs
3. After diluting water with silicone, shake vigorously, apply using a common plastic 32 oz. spray bottle/hand pump sprayer or other atomized methods. We recommend applying the first coating over the ovens top & middle slat belts entire surface area while ovens temperature is 50°F to 200°F (10°C to 98°C) Additional applications can be applied at production temperature if needed. We recommend to apply silicone 2 to 3 times every 6 to 8 hours

SHAKE WELL BEFORE USING

Ingredients. Polydimethyl siloxane, emulsifier, sodium benzoate & water

Precautionary Statements. P305+P338, P351, P301+P330+331

Hazard Statement. None specific

Accidental eye contact. Rinse thoroughly with water for several minutes. Remove contact lenses if present and continue rinsing
