

# TortillaTek READY-TO-USE MAX 800 SILICONE PLUS

## RELEASE AGENT PRODUCT DESCRIPTION

TortillaTek READY-TO-USE MAX 800 SILICONE PLUS non-stick liquid silicone is NOT an INGREDIENT or an ADDITIVE. It is a non-toxic, non-corrosive, high temperature, processing aid product formulated with food grade silicone oils & natural derived emulsifiers that meet the FDA guidelines. It's classified by the NSF as H3 and was developed to meet the needs of the tortilla, wraps & chapatti manufacturers eliminate product from sticking to their oven slat belts without effecting the taste, color, odor and quality of their products

## USER INSTRUCTIONS (R-T-U)

1. Clean the ovens top and middle slat belt surface of any rust, lime or other residues using a soft car wash type cloth or a soft bristle brush to clean without scratching them
2. Our Ready-To-Use SILICONE 800 PLUS is quick, convenient and easy to apply. It keeps the consistency of silicone being applied the same on every production days
3. Shake vigorously, pour and apply using a common plastic 32 oz. spray bottle/hand pump sprayer or other atomized methods. We recommend applying the first coating of the day over the ovens top and middle slat belts entire surface area while ovens temperature is 50°F to 200°F (10°C to 98°C) Additional applications can be applied at production temperature if needed. We recommend reapplying silicone 2 or 3 times every 6 to 8 hours

## SHAKE WELL BEFORE USING
